

WEB PROGRAMMING AND APPLICATIONS

(503073)

WEEK 2

Prepared by Mai Van Manh

**Objective:** This week, you will be given some html files that contain only HTML code and of course, by default, they are not pretty. You are required to write css code to style the pages and make them look better like the illustrative images. You are **not allowed** to modify html pages except by changing the class attrirbute values. Your css code should be placed in a separate file like `style.css` and it will be referenced from html pages through the `<link>` tag.

Please watch the corresponding videos before doing the exercises.

Exercise 1: Student Schedule Table

student schedule

Day/Period	I	II	lunch	III	IV
Monday	Math	Physics			
Tuesday	LAB				
Wednesday	History	Music		SEMINAR	
Thursday	Physical Education	Swimming		Chemistry	Biology
Friday	LAB			Geography	Informatics
Saturday	Math	Physics		LAB	
Sunday					Homework

Exercise 3: Responsive Website

Responsie Website

- Vietnam
- Singapore
- Thailand
- Indonesia

Tutorials

To make the layout responsive, using **media query** feature. This feature allows us to set css on different conditions such as: viewport size, rotation direction of screen, type of device running ...

What is Lorem Ipsum?

Lorem Ipsum is simply dummy text of the printing and typesetting industry.

Where does it come from?

Contrary to popular belief, Lorem Ipsum is not simply random text. It has roots in a piece of classical Latin literature from 45 BC, making it over 2000 years old.

Why do we use it?

It is a long established fact that a reader will be distracted by the readable content of a page when looking at its layout..

Lorem Ipsum chỉ đơn giản là một đoạn văn bản giả, được dùng vào việc trình bày và dàn trang phục vụ cho in ấn.
